Dear Andy:

I wanted to tell you how much I appreciated your stand out performance at the site last Friday and at the subsequent meeting.

You were fair minded in your approach to the problem, careful and systematic in investigating the situation, and sophisticated in suggesting alternative approaches. You couldn't have been more cool and cooperative under difficult circumstances.

The Historical Society (and we) are very fortunate to have you and your company restoring the Bainbridge House. It is at times like last Friday that this becomes especially clear. Thank you.

Yours very truly,

Michael J. Mills A.I.A.  
Partner
